SCENT DESCRIPTIONS

UNSCENTED

Our basic wax blend, scented only with the natural aromas of the raw materials. It smells slightly of honey, thanks to the beeswax in it.

GIN & TONIC

Gin & Tonic was first scented wax we released and is still our most popular, overall. The scent is fairly self-explanatory, it's bright and sharp, with a tangy garnish of lime.

ALL NIGHTER

The most mysterious of our scent selections. Some people find it earthy and musky, while others smell hints of chocolate. This combination of coffee and fresh tobacco will keep you feeling mellow all night long.

STIFF BREEZE

Stiff Breeze is bracing, like a jog through a pine forest in November. It's slightly peppery, and very herbaceous. Our most popular scent in the fall and early winter months.

GINGER DANDY

Ginger Dandy really shines on a warm spring or summer day, and it's a favorite scent for those with a sweet tooth. Ginger and peppermint come together in a smell that cannot be described as anything but dandy.
